CONTROLS 

PRODUCT LINES

INSTRUMENTATION

- Flow
- Inclinometers
- Level
- Positions
- Pressure
- Proximity

CONNECTIVITY

- Cable Glands
- Cellular/Wireless
- Cordsets
- Industrial Ethernet

CONTROLS

- Gateways
- PLC/HMI
- Programming
- Signal Conditioning
- VFD/Servos

INDUSTRIAL LIGHTING

TRAINING AVAILABLE ON ALL PRODUCTS

- Pressure
- Flow
- Level
- Solenoid Valves
- Barriers
- Temperature

- Cordset
- Barriers
- Position Sensors
- Gateways & IO
- Proximity
- Inclinometers

more sensors, more solutions

- Lighting & Indication
- Industrial Wireless
- Distance Sensors
- Machine Safety
- Barcode Readers
- Light Curtains

- Power Supplies
- UPS
- DC to DC
- Redundancy Modules
- Protection Modules

WEST Control Solutions

- Single Loop Controller
- Multi Loop Controller
- Limit Controllers
- Process Indicators and Timers
- Recorders and Data Acquisition
- Signal Conditioners

UNITRONICS®

- PLC + HMI + IO
- Gateway
- VFD
- Servo
- Remote Access
- Software/Support Included

SEALCON

- Cable Glands
- Connectors
- Enclosures
- Hazloc Glands
- Adaptors
- Conduit

EWON® BY HMS NETWORKS

- Industrial Routers
- Web Dashboard
- Smart VPN
- Industrial Cloud
- Cellular/Wireless
- IIOT

Anybus® BY HMS NETWORKS

- Gateways
- Industrial Wireless
- Cloud Connectivity
- Industrial Ethernet
- Fieldbus/Seria
- Bluetooth

ASK THE ENGINEER

TSC dedicates the support of an engineer to assist in the to completion of your project. We guide you in design and manufacturing of the final solution. TCS will help with programming support or introduce you to a certified independent programmer. We stand by the client until the and final solution is reached.

ABOUT US

A Texas representative and distributor, founded in 2009, Texas Sensors and Controls LLC's core principle of business is to technically engage with the customer to engineer a superior solution.

Having 10 Complimentary manufacturers enables our sales and engineering departments to provide knowledgeable support about all products. Training is an integral element of our team's philosophy and we continually engage in factory and internal training programs. We believe our team includes employees, customers and manufactures which creates a positive environment for each member to provide superior results. Our primary markets are OEM's, oil and gas, petrochemical, water and wastewater with a focus on Hazardous areas.

We understand our customer's challenges and provide them with superior automation and control solution.
